airMAN[®] COMPACT
AIR COMPRESSOR

**HIGH-PRESSURE
 APPLICATIONS**

- Car tires
- Bicycle tires
- Basketball
- Sporting equipment
- Party balloons

AIR COMPRESSOR

1. High-pressure air compressor
2. Built-in pressure gauge
3. Thread connector
4. On/off switch
5. Adapter storage
6. Pressure hose
7. 12V car cigarette lighter adapter
(3.0 m cable)
8. Balloon adapter
9. Ball adapter

INFLATION INSTRUCTION

HIGH-PRESSURE AIR COMPRESSOR

The Air Compressor has been specially designed for simple and fast inflation of car tires, bicycle tires, basketball, sporting equipment, and party balloons. The air compressor provides a small quantity of air at a relatively high pressure.

INFLATING A CAR TIRE AND BICYCLE TIRE

1. Roll out the 12V cord and connect the 12V car cigarette lighter adapter to the cigarette lighter socket in your car.
2. Screw the thread connector onto tire's valve stem.
3. Operate the air compressor until the desired pressure is reached.
4. Remove the thread connector from the tire and disconnect the 12V car cigarette lighter adapter.

Note: To avoid over-inflation of tires, please check the recommended car tire pressure in the vehicle's owner's manual. For bicycle tire, please check the tire marking.

INFLATING SPORTING EQUIPMENT (I.E. BASKETBALL) OR PARTY BALLOONS

1. Roll out the 12V cord and connect the 12V car cigarette lighter adapter to the cigarette lighter socket in your car.
2. Screw the ball/balloon adapter into the thread connector.
3. Insert the ball/balloon adapter into valve of the object to be inflated.
4. Operate the air compressor until the desired firmness is reached, or the object is fully inflated.
5. Pull ball/balloon adapter from the inflated object's valve and unscrew ball/balloon adapter from the thread connector.
6. Disconnect the 12V car cigarette lighter adapter from the cigarette lighter socket and store the 12V cord into the compartment area.

Note: If a pressure reading is required during inflation, the built-in pressure gauge will provide an estimated reading only.

INFLATION INSTRUCTION

⚠ CAUTION ⚠

- Do not run the air compressor continuously for more than 10 minutes. After each 10 minutes, allow it to cool for a minimum of 10 minutes.
- Do not leave the air compressor unattended while in operation. Keep out of reach of children.
- Do not exceed maximum pressure of 150 psi.
- The built-in pressure gauge will provide an estimated reading only. Please use a digital pressure gauge for more accurate pressure information.

GENERAL SAFETY MEASURES

GENERAL SAFETY MEASURES AND PRECAUTIONS THAT APPLY TO THE USE OF AIR COMPRESSOR

Safe operation of the air compressor require that you read the instructions and safety precautions carefully and follow all instructions before using the air compressor.

1. The air compressor is designed for occasional use. Inflation over a long period will overheat the air compressor and may cause damage.
2. The air compressor must not operate for more than 10 minutes at a time, after which it must be switched off and set aside to cool for at least 10 minutes before restarting.
3. If the air compressor emits abnormal sounds or overheats, turn it off immediately and let it cool off for minimum 30 minutes.

4. Inspect air compressor before use. If cracked, broken or damaged parts are found, qualified technicians should repair damaged parts.
5. Incorrect use of air compressor may result in personal injury and/or property damage.
6. Never expose the air compressor to rain, frost or temperatures above 50 °C (122 °F).
7. Never use the air compressor near flammable fluids or gases. Make sure your working area is well-lit.
8. Protect yourself against electric shock. Avoid physical contact with grounded surfaces such as pipes, radiators, electric stoves, refrigerators, etc.
9. Never allow children to connect/disconnect the air compressor to/from power sources. Never leave children unattended with the air compressor and never allow them to play with the accessories.

GENERAL SAFETY MEASURES

10. Never allow anyone to pump air into mouth, ears, nose, etc of people, or animals. The air compressor is not a toy.
11. Store air compressor in a secure location. If the air compressor for long periods of time, it should be stored in a dry space inaccessible to children.
12. Make sure the cord is not exposed to hot objects, oil or sharp edges.
13. Keep the air compressor clean to maintain maximum output and safety. Examine the plug and cable pack at regular intervals and have them repaired by qualified technicians if they are damaged.
14. Unplug the 12V car cigarette lighter adapter from the cigarette lighter socket in your car when is not in use.
15. Stay alert. Always pay attention to what you are doing when working with the air compressor.
16. **Warning!** For your own safety, you should only use accessories and parts specified in the instructions, or recommended for use by the manufacturer. Use of accessories and other parts that are not mentioned in the instructions may entail an increased risk for the user of the air compressor.

LIMITED WARRANTY

This Active Products equipment carries a one-year limited warranty against defects in manufacturing workmanship. This Limited Warranty shall be limited to the repair or replacement of parts which prove defective under normal use and service and which on examination shall indicate, to Active Product's satisfaction, they are defective.

Active Products reserves the right to request the return of defective parts. Shipping charges and shipping insurance to and from the service centre must be borne by the purchaser. Photocopy of original proof of purchase is required before warranty service is performed.

The foregoing warranty does not apply to defects resulting from faulty installation, operation, disassembly, alterations or remodeling, or misuse, misapplication, neglect, abuse, accident, tornado, hurricane, and earthquake; or lack of proper maintenance, cleaning and care. Warranty will not apply if this product is used for commercial or rental purposes. This warranty shall not extend to anyone other than the original purchaser of this product.
